TOWNSEND — ARIZONA'S 6TH DISTRICT

Kelly Townsend grew up in Oregon and served in the U.S. Navy from 1988 to 1992. Townsend earned her Bachelor's degrees from Arizona State University and Southern Oregon University, as well as a Master's degree from Arizona State University. She had a career in Corporate Management, was a certified Birth Doula, small business owner, and an author.ⁱ

Townsend has served Arizona's 16th Legislative District since 2013. She was State Representative until 2021 when she became State Senator.ⁱⁱ From 2017 to 2018, Townsend was the Majority Whip of the House of Representatives. She had unsuccessfully run for Arizona House of Representatives District 22 in 2010.ⁱⁱⁱ

Red Flags:

- Asked who won the 2020 election, Townsend responded "I don't know" because "we haven't finished this audit [yet]. Until we have an answer from the attorney generals who is currently investigating the claims, it would be irresponsible for me to make a claim, one way or the other."^{iv}
- In 2018, Townsend criticized President Trump for "getting so cozy with Putin at the 2-18 Helsinki summit"^v
- Townsend condemned candidate Trump's proposed Muslim ban^{vi}
- Townsend lives in Apache Junction in the East Valley (District 5) — nearly 60 miles away from District 6, which she is running to represent^{vii}

Positives:

- Supports election integrity and an audit of the Arizona 2020 election results
- Voted to require voters to include identification paperwork with their mailed ballots^{viii}
- Sponsored legislation that would prohibit returning early ballots by mail and instead require them to be hand delivered^{ix}
- Sponsored a bill that would have allowed alternative electors to act as the electors for the state^x
- Supported the "Stop The Steal" movement following the 2020 election and attended a public meeting held by Rudy Giuliani on voter fraud^{xi}

Notables:

- Townsend spoke at President Trump's rally in Florence, Arizona. Trump said "[Townsend] is running for Congress and she will be incredible" — which was described as an "endorsement" on the radio program she announced her candidacy^{xii}
- In a series of since-deleted tweets, Townsend said the January 6 rioters learned their behavior from liberals, and blamed Governor Doug Ducey for inspiring the riot by not initiating an audit^{xiii}

COMMITTEES:
ELECTIONS -- Chairwoman
Education
Federal relations

December 31, 2020

Dear Vice President Pence,

As the Chairwoman of the Arizona House Elections Committee, I write to you with upmost urgency to communicate to you several occurrences that thwart our ability as legislators to investigate legitimate and concerning allegations of election fraud in the most recent general election. On December 14, 2020, Arizona sent an alternate slate of electors, along with a resolution from 21 current and 8 newly elected legislators asking you to refrain from accepting the Biden electors until we could adequately investigate these claims of fraud.

Soon after the election, I requested an Elections Committee discovery hearing in order to use subpoena power to acquire the voting machines and ballots in order to do a comprehensive and forensic audit. I was told that it was not a good idea and was denied the ability. I continued to request the hearing with the Speaker of the House, asked publicly, and tried every avenue to no avail. A full month later on December 9th, the Senate President authorized a hearing via the Judiciary committee, and that did result in subpoenas to the Maricopa County Supervisors (who oversee the elections process) that have yet, as of the writing of this letter, been complied with.

Court cases have been dismissed due to not having evidence, however our efforts to do an audit to obtain such evidence have been suppressed. We held a hearing on 11/30/2020 with Rudy Giuliani to at least hear testimony from citizens who experienced irregularities, along with subject matter experts who reported severe irregularities and probable tampering with the machine apparatus. On 11/30/2020, a group of Arizona citizens reported publicly that they had uncovered with great confidence a minimum estimation of 160,000 fraudulent voters, based on over 1000 declarations/affidavits collected. This supports an earlier document submitted to the Attorney General and would largely impact the outcome of the election.

We have experienced obstruction at every turn. For your reference, I have itemized, in Exhibit A, many of the various ways we have been stopped from investigating claims of fraud and gross irregularities. It is my hope that you will see that the Arizona Presidential election is still in dispute and unresolved. We call on you to take this into consideration as you perform your duties on January 6th, and not accept the electors until we have resolution to these matters.

With utmost respect,

Senator-Elect Kelly J. Townsend

Kelly J. Townsend

Exhibit A

1. Requests from the House Elections Chairwoman (myself) and the House Federal Relations Chairman (Mark Finchem) to hold an evidentiary hearing were repeatedly denied and have yet to be honored. Multiple Chairmen of various committees requested a hearing in order to investigate claims, to no avail. We were forced to hold an unofficial hearing on November 30th where many came forward with very concerning evidence and claims.
2. The Senate Judiciary Committee hearing was not held until 41 days after the election on 12/14/2020, the same day as the Electors were to cast their votes. This delay rendered the hearing of little effect regarding having confidence in the correct votes cast. The Chairman thus issued a subpoena for the equipment and ballots, but the Maricopa Board of Supervisors has countersued and refuse to comply. They will not release any machine or ballot info, even though within the RFP for the Dominion machines, it is stated that their key features are their ability to conduct hand counts, perform risk limiting audits, and publish ballot images and adjudication records with markings on a public website, calling it their open data initiative. Now that they are being asked for it, they are refusing to make it available, citing voter confidentiality. There is no voter information contained in the machine or on a ballot, however, so that reasoning is insufficient. Their inaction and nonfeasance prevent us from proper discovery.
3. I, along with several others, requested the Governor to call us in for special session to be able to deal with the issue. It is our understanding that we cannot enforce the subpoena for equipment and ballots unless we are in session. His ongoing unwillingness to call us into session to address these issues had kept us from adequate discovery. On 12/02/2020, Governor Doug Ducey was asked by the media if he was going to honor the Legislator's request for a special session. He proceeded to incorrectly name Monday January 13th as our first day back in regular session. In response, the reporter asked, "So you see no need for a special session to look at any of these issues or the issue of Presidential electors....," to which the Governor interrupted and said, "I'll see the Legislature in January."
4. The House leadership attempted to deter Representative Bret Roberts from sending a letter to Attorney General Bmovich and the Maricopa County Board of Supervisors regarding the accurate performance of a hand count based on the statutory requirement to do so by precinct, versus vote center. By doing a hand count based on voting centers, it renders it impossible to tell if there was a rogue precinct involved in fraud. Nevertheless, Rep. Robert's efforts to enforce statute were thwarted by House leadership.
5. One week prior to the Electors voting, on December 7th, the House and Senate leadership closed the buildings in the name of COVID-19, preventing any in-person hearings or work to be performed. This greatly hindered our ability to push for discovery regarding election integrity during the last days before the Elector's votes were cast.

John P. ...

6. The Maricopa County Board of Supervisors held a closed meeting on 11/20/2020 in order to certify the election results, where the public was not allowed to participate and ask questions. Prior to that meeting, on 12/08/2020, Merissa Hamilton (a data integrity expert) delivered to the Attorney General a statistically significant listing of deceased voters that received a ballot and those deceased who actually returned a ballot. At the aforementioned meeting, the Maricopa County Elections Director Ray Valenzuela stated that the list of deceased voters casting a ballot was mere folklore and dismissed it as a nonissue. This accusation is still pending an investigation.

7. After submitting a public records request for the Federal only voters who cast a ballot in the 2020 General election, I was told by a staff member that the Elections Director was "vetting the list" before he gave it to me. I did not request a cleaned-up list of voters, but the list in its entirety. This diminished my confidence in that list, that I have a true representation of persons who cast a ballot that cannot establish their identity or citizenship.

8. Arizona State House leadership prevented Legislators from issuing press releases having to do with the election that did not conform to their own opinion. This diminished our ability to communicate to the public our concerns about how the election and post procedures were being handled.

9. On 12/01/2020, I requested the Attorney General's Elections Integrity office to investigate the claims made at the November 30th Giuliani hearing and provided them the link. I was told that none of the items listed at the Giuliani hearing would be investigated by that office.

10. The Maricopa County Recorder attended more than one DefCon conference that focused on the ability to hack voting machines. The Legislature was never informed that the outcome of these conferences recommended that elected officials be notified due to unprotected ports on the machines, passwords left unset or left in default configurations and security features of the underlying commercial hardware were left unused or even disabled. It was recommended that to improve election security, paper ballots should be used, and a rigorous post-election audit be performed. We learned about this issue via social media, and it was obfuscated by the Election officials.

11. Arizona Republican State Chair Kelli Ward reports the following malfeasance and obstruction:

- a. No allowed review of the digitally adjudicated ballots – over 200,000.
- b. Only 100 of the duplicated ballots reviewed – 3% error rate in favor of President Trump. Maricopa County refused to look at the other 28,000 ballots.
- c. No meaningful signature verification. County employees doing signature verification offsite, over the internet, without oversight, and at times at a rate of 30 signatures or more per minute.

12. The Secretary of State took 24 days to answer a public records request by Merissa Hamilton, asking them to deliver the meeting minutes from their technical committee to certify the Dominion voting equipment. Only after four requests and the involvement of the Ombudsman did she obtain the information. The results of that request showed that despite the voting equipment not being able to calculate the votes properly, which was never addressed, the machines were still certified. The Maricopa County RFP for the Dominion equipment did not give the public a chance to give input on the procurement. There was never any discussion or an offer of various options to choose from. The Board of Supervisors went straight to a vote with no discussion and approved the machines unanimously.

13. There are multiple/numerous examples of how on election day observers and poll workers were prevented from overseeing the various procedures, thereby undermining confidence that there was no illegal activity and violating Arizona's statutes regarding election integrity. We have had no formal investigation into the vast majority of these accusations.

Summary:

Arizona has many unresolved issues that we would like to have investigated in order to confidently say our electors voted for the true victor in the 2020 Presidential election. We still have outstanding issues left unresolved and are being stopped at nearly every turn from investigating. For example, the Maricopa County Recorder's office started counting early ballots 14 days before election day. During that time, the backup server was removed each night by a Dominion employee. This is of significant concern because the information on those servers could have been manipulated and/or provided to nefarious people as to how many ballots/votes were needed to change the results of the election as time went on.

Many in the Legislature believe that if we are able to do a forensic audit, we could investigate these and other serious claims brought forward to us. However, as you can see by the list above (not exhaustive but brief for your benefit) we have many entities who appear to be blocking our efforts to get to the bottom of the issue. One can only ask, in a supposedly secure and fair election, why discovery is being quashed.

Conclusion:

It is asked that all of these issues be considered when contemplating the eleven Arizona electoral votes. Our election is still in dispute, and we have obfuscation and attempts at running out the clock to prevent discovery of the facts. We believe it is impossible to conclusively declare a winner in Arizona and pray that you would refrain from counting the electoral votes from our state, and consider the alternate slate should we be able to establish validity to the various claims of election fraud on such a scale that would change the outcome.

Thank you, kindly, for your attention to these matters.

Subject: Re: #italydidit Are you willing to look at the proof of election fraud?

I continue to insist on a full independent forensic election audit.

Thank you for reaching out.

Dear Representative Townsend,

<https://youtu.be/QBGiHZfOheI>

The CIA, MI-6, the Italian embassy. Any of this ringing a bell?

Every single one of you must search your conscience and do the right thing. Democracy will die under your watch if you do nothing. Who among you is brave enough to act?

For nearly two months, we have been told there's "no evidence" of electoral problems - at least sufficient to affect the outcome of the presidential race. Actually, there is so open your eyes and do something about it!

Thank you
Jennifer Goss

That small Korean Airlines jet, HL8230, had just been in Hanoi before going to AZ. @vialoysia uncovered a ballot counterfeiting in Guandong Province, southern China, not that far from Hanoi.

Good morning. So #KoreanAirGate is likely true,...

If someone could do a deep dive on these passengers, I (and the 80 million US citizens who voted for DJT) would really appreciate it. I have only the bandwidth to look into the Samsung Electronics CEO

Thank you to everyone who offered to help. Because the patriot inside the CBP who sent me this screenshot didn't (for good reason!) put the data into a more readily accessible format, I did. Please see attached. If you could add—with footnotes, of course—in the info column, I would very much appreciate it..

BTW: If you're wondering why the FBI isn't doing this, you're getting warmer. If you're wondering if almost every single institution in our Federal Government is captured, you're red hot. It's a travesty. It's up to us to #TakeOurCountryBack.

On Saturday November 7th, 2020 I went to two rallies earlier in the day. At 1pm I went to the rally at the capitol in Phoenix, Arizona and met up with Dr. Cordie Williams briefly. I also saw Sheriff Mark Lamb at that rally, and took a picture with him.

While at the capitol I ran into people who realized I had previously worked with Project Veritas, so they gave me some tips about election fraud. They gave me the name of **someone named Staci Burk, who knew someone in Seattle at a shipping center, who had seen ballots being loaded into trucks to be shipped around the country. There was zero mention of airplanes, just of a shipping center in Seattle.** I took notes on my phone about this where it says "kid it was his last day".

I took down the information about **Staci Burk**, which only mentioned Seattle and nothing about Phoenix. Then around 3:00pm I went to the rally at 510 S 3rd Ave, Phoenix AZ 85003, at the Maricopa County Tabulation and Election Center (MCTEC).

I gave a speech at around 5:10pm which you can see here:

I also met Adel who was leading the rally. During my speech I plugged Project Veritas, since I was an insider with them and went public with them on 6/25/2020 as an insider at Facebook.

At about 5:30pm I left the rally, ate and walked to my car.

At 6:29pm I got a text from Jessica (alias), who is a friend of Nancy who said "Hi call Nancy. I got a call a Korean bombier jet from Korea with a blue belly flew in an airplane w no seats and has boxes of ballots. At Swift Aviation Phx." And she shared with me the contact info for Jennifer. [RH1]

At 6:34pm I got a text from Nancy that said "Do you know anyone who can get to Swift transportation .Told about a plan with ballots & unsure if loading or going to election counting place. Plane is a bombardier small jet with blue belly."
